Psychological testing - Wikipedia *Psychological testing is the administration of psychological tests, which are designed to be "an objective and standardized measure of a sample of behavior". The term sample of behavior refers to an individual's performance on tasks that have usually been prescribed beforehand. The samples of behavior that make up a paper-and-pencil test, the most common type of test, are a series of items.* **Psychometric Test Types - Career Gym** *These tests can be used to measure a person's ability or knowledge level in a certain field, but are most commonly used to "get a feel for" a candidate's general level of intelligence and ability.*
