In each of the subsequent editions, I have tried to incorporate the major Financial economics - Wikipedia Financial economics is the branch of economics characterized by a "concentration on monetary activities", in which "money of one type or another is likely to appear on both sides of a trade". Its concern is thus the interrelation of financial variables, such as prices, interest rates and shares, as opposed to those concerning the real economy. It has two main areas of focus: asset pricing (or ... Supply (economics) - Wikipedia *In economics, supply is the amount of something that firms, producers, labourers, providers of financial assets, or other economic agents are willing to provide to the marketplace. Supply is often plotted graphically with the quantity provided (the independent variable) plotted horizontally and the price (the dependent variable) plotted vertically.. In the goods market, supply is the amount of ...* **Glossary of research economics - econterms** Box and Cox (1964) developed the transformation. Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified this. **BibMe: Free Bibliography & Citation Maker - MLA, APA ...** ?Citing and more!
