Gestalt is a psychology term which means "unified whole". It refers to theories of visual perception developed by German psychologists in the 1920s. These theories attempt to describe how people tend to organize visual elements into groups or unified wholes when certain principles are applied. Composition and Design Principles *Everybody immediately responds to subject matter in art. A picture of a butterfly and a picture of a snake do not get the same response. In addition to subject matter*, the formal aspects of visual composition are like the grammar of a language. In writing, a story is written with words - subject matter. Like good literature and good poetry is more than words and subject matter, art is more ...* **Elements of Art/Design and Principles of Design ...** Whole books are written about each of these art terms, filled with definitions, histories, insights, tips, and examples - these pages are just the tip of the iceberg.
