Global warming is a long-term rise in the average temperature of the Earth's climate system, an aspect of climate change shown by temperature measurements and by multiple effects of the warming. The term commonly refers to the mainly human-caused observed warming since pre-industrial times and its projected continuation, though there were also much earlier periods of global warming. https://en.wikipedia.org/wiki/Global_warming .Global - Home Why choose a .global domain?. The world is ever more interconnected and boundaries are constantly dissolving and changing. Whether you are big brand, a small start-up or you wish to bring people together around an idea, no other domain communicates with such clarity your global aspirations. Effects of global warming - Wikipedia The effects of global warming are the environmental and social changes caused (directly or indirectly) by human emissions of greenhouse gases. There is a scientific consensus that climate change is occurring, and that human activities are the primary driver. Many impacts of climate change have already been observed, including glacier retreat, changes in the timing of seasonal events (e.g ... "Global Warming" is a psychological operation, a "psyops", to condition the public to believe that we are going to be in a lot of trouble in the near future if we don't take steps "X, Y, & Z", and do it quickly. Those "steps" are what the Illuminati want us to follow so they can further consolidate their control over our lives-and still make a ton of money in the process. **Global Warming's Increasingly Visible Impacts** v Global warming will not only be felt many decades from now—it is already happen-ing and its impacts are clearly visible. As well as the links above, see also *Skeptical Science*, which, while examining the arguments of global warming skepticism, provides information on causes of anthropogenic global warming.. Doesn't recent record cold weather disprove Global Warming? **Global Warming Potential Values - Greenhouse gas** Global Warming Potential Values The following table includes the 100-year time horizon global warming potentials (GWP) relative to CO2. This table is adapted from the IPCC Fifth Assessment Report, 2014 (AR5). **The Global Warming, Spin and Media — Global Issues** Accompanying the concerns of climate change and global warming is the media spin, propaganda, and special interests. For many years in some countries, scientists and environmental groups raising concerns about climate change faced stern opposition, and at one time, ridicule. Initially, many big businesses and countries such as the United States were openly challenging concerns of climate change. **Roy Spencer, PhD** Global area-averaged lower tropospheric temperature anomalies (departures from 30-year calendar monthly means, 1981-2010). The 13-month centered average is meant to give an indication of the lower frequency variations in the data; the choice of 13 months is somewhat arbitrary... an odd number of months allows centered plotting on months with no time lag between the two plotted time series. **Global warming - RationalWiki** Global warming, also known as anthropogenic (or human-caused) global warming, is the rising average temperature of Earth's atmosphere and oceans and its related effects.
