The brain is located in the head, usually close to the sensory organs for senses such as vision. The brain is the most complex organ in a vertebrate's body. In a human, the cerebral cortex contains approximately 10–20 billion neurons, and the estimated number of neurons in ... <https://en.wikipedia.org/wiki/Brain> The Categories Were Made For Man, Not Man For The ... I. "Silliest internet atheist argument" is a hotly contested title, but I have a special place in my heart for the people who occasionally try to prove Biblical fallibility by pointing out whales are not a type of fish.
