Marine conservation - Wikipedia Marine conservation refers to the study of conserving physical and biological marine resources and ecosystem functions. It is the protection and preservation of ecosystems in oceans and seas through planned management in order to prevent the exploitation of these resources. Marine conservation is driven by the manifested negative effects being seen in our environment such as species loss ... DNR - DNR - michigan.gov *Newsletter Signup.*

*Sign up to receive email updates. You will be able to choose from many different topics to receive the news you want to know about.* **Biological Sciences < Old Dominion University Marine Biology Concentration.** *The marine biology concentration provides students with coursework, specialized advising, and practical experience in marine biology while ensuring a strong, balanced education in one of the traditional natural sciences in which students major.* **DCNR**
